Taoufik Rachdi

Automotive Test and Validation Engineer

taoufik.rachdi@enis.tn +216 21647646
linkedin.com/in/taoufik-rachdi Ariana, Tunisia

SUMMARY

Automotive Test and Validation Engineer specialized in embedded electronics. Experienced in manual, automated, and diagnostic testing on test benches using Vector tools, DDT2000, Silk Central, and Jira. Passionate about IoT technologies, embedded development, and software quality assurance.

PROFESSIONAL EXPERIENCE

Automotive Test and Validation Engineer – SERMA International Jul 2023 – Present, Ariana

Owner of Diag/DTC Function and PVS for Digital Avatar Jul 2024 – Present, Ariana

- Client: Renault Alliance – Project A IVI 2 (In-Vehicle Infotainment).
- Responsible for creating and reviewing PVALs for the Diag/DTC function.
- Verified specifications and requirement coverage for Diag/DTC.
- Executed and logged test cases for both Digital Avatar and Diag/DTC functions in CodeBeamer, analyzed results, and documented deviations.
- Identified anomalies and reported bugs using Jira.
- Participated in meetings with PFS and PDE teams.
- Used calibration files and prepared configuration files required for validation.
- Tools: CodeBeamer, Vector CANalyzer, DDT2000, Jira, Shell, CAPL, Gateway, Wireshark.

Diag/DTC Function Validation Lead Jul 2023 – Jul 2024, Ariana

- Client: Renault Alliance – Project A IVI 2 (In-Vehicle Infotainment).
- Executed functional and non-functional test plans in Silk Central, analyzed results, and documented discrepancies.
- Set up test environments and prepared test benches.
- Detected anomalies and reported issues via Jira.
- Performed functional, non-functional, integration, and regression tests on manual benches using Vector CANalyzer and DDT2000.
- Contributed to the setup of structured testing activities.
- Developed CAPL automated scripts.
- Created XML automated scripts in DDT2000.
- Tools: Silk Central, Vector CANalyzer, DDT2000, Jira, Wireshark, CAPL, IVI, Gateway.

Final Year Project – Smart Ways Innovation Feb – Jun 2023, Sfax

Developed an IoT-based gas and fire detection system using ESP32, including a mobile app and a website for real-time alerts. Designed the PCB using Altium Designer.

EDUCATION

National Engineering School of Sfax (ENIS) 2020 – 2023, Sfax
Engineering Degree – Electrical Engineering
Specialization: Embedded Electronics and Instrumentation.

Higher Institute of Applied Sciences and Technology of Gabès (ISSAT) 2018 – 2020, Gabès
Preparatory Cycle – Physics and Chemistry.

TECHNICAL SKILLS

- **Testing:** Manual Testing, Test Bench, Test Cases, Silk Central.
- **Tools:** Vector CANalyzer, CANoe, DDT2000, Jira, CAPL, Wireshark.
- **Buses:** CAN, LIN, UDS.
- **Languages:** C/C++, Python, Java, Embedded C.
- **Web/IoT:** Angular, Android Studio, Laravel, ESP32, Raspberry Pi.
- **Electronics:** IVI, Gateway, STM32, FPGA, Altium, PCB Design.

CERTIFICATIONS

ISTQB® Certified Tester – Foundation Level (CTFL) `ID: 115412`

ADDITIONAL TRAINING

STM32 Training – ACTIA Engineering Services
Topics covered: UART, ARM, STM32CubeIDE, Embedded C.

ASSOCIATIVE ACTIVITIES

ENIS Electrical Club (CEE) – Organizer of ENIS 4.0 Robotics Competition.
IEEE SSCS ENIS Student Branch Chapter – Active member.

LANGUAGES

Arabic (Native), French (Fluent), English (Intermediate), Spanish (Beginner).
